**Phone:** 9345855692 | **Email:** ckarthikeyan9345@gmail.com | **GitHub** | **LinkedIn**

## CAREER OBJECTIVE

Motivated Full Stack Developer skilled in front-end (HTML, CSS, Bootstrap, JavaScript, React.js) and back-end (MERN stack) technologies. Passionate about creating responsive, user-friendly web applications and eager to grow within a reputed organization. Committed to continuous learning and delivering high-quality, performance-driven solutions.

## TECHNICAL SKILLS

**Web Technologies:** HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js

**Programming & Scripting:** JavaScript, Node.js

**Back-End & Database:** Express.js, MongoDB

**Development Tools:** Git, GitHub, Visual Studio Code

**Other Skills:** Responsive Web Design, DOM Manipulation, REST API Integration, React State Management, MERN Stack Development

## PROJECTS

**Project 1: Furniture Shop Web Application**

**Technologies:** HTML5, CSS3, Bootstrap, JavaScript

- Designed and developed a fully responsive website with a royal-themed interface
- Built dynamic Home Page, User Dashboard, and Admin Dashboard with full CRUD operations
- Used Bootstrap and JavaScript for smooth navigation and event handling
- Focused on mobile-first design, optimized load times, and enhanced UX
- Enabled users to browse, manage orders, and admins to control product inventory

**Project 2: Online Hotel Booking System**

**Technologies:** React.js

- Developed a hotel booking platform using React.js with a component-based architecture
- Created key modules: Home Page, User Dashboard, and Admin Dashboard
- Used React Hooks for effective state management
- Implemented form validation for smooth and error-free user interactions
- Ensured a responsive design for seamless access across devices and screen sizes

## EDUCATION
